**Lakeside Union School District**

Parent Portal

Welcome to Lakeside Union School District's Parent Portal access to our Student Information System. With this portal, you will be able to view your student's classes, attendance, grades, and personal information. Kindergarten and 1ˢᵗ grade will not have grades, but will have the other information.

To access the portal, please go to https://www.accessmystudent.com/lakesideusd/

If you have previously created an account, you will use the same log on credentials and do not need to create another account.

If you have not previously used the system, select Create New Account. Parents may create an account by selecting the "Parent" option on the next page. **Students can create their own account by selecting the "Student" option.** You will be prompted to enter your email address, then create a password. This will become your log in information. The system will email you a confirmation code before you can proceed any further. Once you receive and enter the confirmation code, you will be prompted to log in using the email address and password you provided.

Your homepage will look like the above photo. Next to the Home tab, you have tabs that allow you to look at your student's information, attendance, and grades. If you have more than one student attending our district, you can select "Add new student to your account" from the Change Student tab. You will need that student's verification code. You may switch between students' information on the Change Student tab.
